- *True Anticipated*: Defined as submission of an anticipated diploma point score including six IB courses with or without additional points
- Cannot distinguish between predicted zero and non-reporters
- Conclusion: Consistency can only be achieved without additional points
- Anticipated scores *without* additional points are slightly better predictors of first year success than anticipated scores *with* additional points.

# Higher Level IB, Standard Level IB & Yr1 Credit

- UBC gives first year credit based upon performance in Higher Level IB courses (and some Standard Level).
- UBC recognizes the positive impact of Higher Level English and Higher Level Math in the undergraduate admission decision.
- Is skipping ahead into second year courses a concern? No!

# Conclusions

- IB students tend to be academically strong, highly engaged first-year students.
- IB diploma is a very strong predictor of first year success.
- The vast majority of IB students perform in first year at the same level as an A- student (in the Canadian system) or better.
- Even with some over-anticipation in anticipated grades, assessments are very reliable.
- IB students with transfer credit succeed when entering directly into upper year classes.
