

## French Immersion Certificate Program Pathway Le Certificat d'Immersion à Chippewa Secondary School

The French Immersion Program offers students a unique bilingual educational alternative. Students can complete a secondary education and extend their use and knowledge of French as a second language at the same time. The primary goal of the program is to provide students with a variety of options taught in French in order to maximize the use of and improve French language skills.

French Immersion Certificate students must complete 10 French Immersion courses from this list including all four French Language courses (FIF). Many of these courses also fulfill compulsory credit requirements for their OSSD.
