

## Engage in the event and ask a panel member a question!

1. What do you like most about your current position?
2. What are some of the challenges in your job?
3. What skills are the most important to be successful in your position?
4. How/when did you become interested in the profession you are now in?
5. Were your family/friends supportive of your career decision?
6. What high school courses did you take that have helped you?
7. What summer or part-time jobs helped you gain some of the skills needed to work in this area?
8. What does the company you work for do?
9. How many of the trades people where you work are female?
10. What do you think the future prospect of your particular trade area is?
11. What advice would you give me about pursuing your particular trade/career path?
12. How did you narrow down what trade or technology career was best suited to you and where can I get exposure to different trades to help me in this decision?
13. Did you have difficulty finding an apprenticeship co-op position in your trade? If so, how did you overcome this?
14. What was the toughest thing you had to overcome to get where you are today?
15. What courses would be helpful to take to get into the skilled trades or technology?
16. What are some of the difficulties that come with working in a male dominated trade?
