

# Edsby For Parents

*Edsby lets parents see what's happening with their kids at school, and helps them play a more active part in their education.*

The Near North District School Board is pleased to inform you that we will be implementing a new comprehensive learning platform, Edsby. This new application enables teachers to share learning resources, assess student progress and provide real-time feedback to students and parents. Edsby also allows parents to communicate with teachers or the school office and view their child's attendance information as well as their calendar including due dates, school/team information and other scheduled events.

Edsby account setup e-mails will be sent if the required documents have been received by the school office (see below).

## How do I setup my Edsby account?

- Canada Anti-Spam Legislation form must be completed and returned to the school office
- Student information index card must be signed and returned to the office with any required changes

If both of the above have been returned to the office, you will receive an invitation e-mail with setup instructions. To complete the setup, you will need your child's OEN Number which can be found on your child's report card or timetable. You will be provided with a username in the e-mail and the OEN will be a temporary password. If you have any issues accessing your child's OEN please contact the school office.
