

## Submission for Public Meeting 2.

I am a parent and member of our community, and I am looking for answers. There were many concerns raised and questions asked by the public at the first public meeting, however, we have not yet received answers. I am asking the board and its trustees, who were elected by our community, to be transparent by providing answers and therefore allowing the public, and the ARC, to be fully informed through this very important process. Each concern and question deserves full response. I trust that minutes were taken at the first public meeting, and that you have a list of questions and concerns raised by the community.

As no agenda has been provided for the upcoming meeting, I thank you in advance if the public's previous questions and concerns are going to be addressed. If the ARC public meetings are not the correct venue for the board and its trustees to provide the public with answers and information, I ask that an information meeting be held prior to the June meeting. Your community has the right to answers and information.

Sincerely,

Becky Raymer
