## TRUSTEE INITIATIVE FUND

### TERMS OF REFERENCE

Trustee initiative fund is established during the normal budgetary process each year. The amount set aside will be determined by budgetary constraints but will not exceed \$100,000.00

Scope: The fund is established by the board of trustees to provide seed money for new activities, pilot projects and on going community activities that in the opinion of the board enrich student life and are considered consistent with the values of student achievement and clearly align with the objectives of the board of trustees.

Allocation of Funds: Funds may be requested from community participants for a single or over many years. Proposals must clearly indicate how the money will be spent and how the money will enhance student achievement and well being. Recipients of funds must submit an annual report even if the funds are a one time allocation or over many years. All funds must be used for the purpose for which they were approved.

Approval Process: Depending on the number of community requests, the funds will be allocated during a normal board meeting. If there are a large number of requests in any one year then an ad hoc committee would be formed to make a recommendation to the board of trustees.

Allocated Amount: Decisions will be made as to amounts awarded by the amount requested, the value to the student population and by budget constraints.

Funding Requests: Must be made by January 31<sup>st</sup> in the year the money is expected.
