

International Day for the Elimination of Racial Discrimination

*Celebrating Students Who Make a Difference  
2018*

*Liam McNeil*

*West Ferris Intermediate School*

West Ferris Intermediate School is pleased to recognize Liam McNeil as a student who makes a difference. Liam is a seventh grade student who was immediately identified by the staff as deserving of this recognition! He is constantly making contributions to student life. He participates in student council, Me2We and sports such as volleyball and cross-country running. Liam is also active outside of school in his church community, attending youth group and making special presentations to the congregation.

Staff identifies him as a quiet leader who sets an example for other students to follow. Although he is soft spoken, Liam is a cheerful and enthusiastic young man who maintains a positive attitude no matter what the subject area or task. In groups, Liam is always very accepting of other's viewpoints, and never makes anyone feel that their ideas are less important than his own. He is consistently considerate of others, usually thinking of them before himself. His patience with students who have special needs, or need extra support is impressive, as it seems to come naturally to him to help others.

Liam is an asset to the school Bay community and we at West Ferris are proud to have him as part of the Trojan family!

*Congratulations on your success, Liam!*
