Celebrating Students Who Make a Difference
2019

Take Action Team

White Woods Public School

When it comes to making a positive impact on their school and making a difference in their community, and around the world, the **Take Action Team at White Woods Public School** does all that and more. Made up of approximately 25 intermediate students, this group works hard at setting into place everything they need to help both locally and globally. They come together to create action plans for a variety of initiatives. Although to be considered a 'WE School', the team must take on one local and one global initiative, per year, this hard working group often goes above and beyond these requirements and takes on several projects throughout the year. Through fun and exciting events such as: Slushie Day, Food Drives, Movie Day, Staff Pie in the Face contest, Cupcake Day, and clothing drives; this team has helped support: the West Nipissing Food Bank, the Nipissing First Nations Food Bank, The Horizon Women's shelter, Pets Need Love 2, The Kidney Foundation, The Canadian Red Cross (Hurricane relief, Safe drinking water on Northern Reserves), Girls Education in various parts of the world, the purchase of bed nets, medicines for new moms and their babies, and much more. It is a group that works tirelessly all year round and maintains a bond like no other group in the building. This group of students reminds us that there is tremendous hope for our future as they exemplify the notion of living in service of others and working for something greater than themselves.

Congratulations!
