Dear Parents and Guardians,

Further to our communication about the provincial state of emergency, which comes into effect Thursday, Jan. 14, 2021 at 12:01 a.m., updated information has been provided from the Ministry of Education and the North Bay Parry Sound District Health Unit regarding the use of masks at school while outdoors.

According to the health unit, if physical distancing is not possible outside, students and staff will be required to wear masks.

Scarves may not be substituted for masks.

Students are encouraged to bring extra masks to school in case masks get wet when outside.

Thank you.
