Dear Parents and Guardians,

In light of the rising number of COVID cases provincially, NNDSB is asking all staff and students to take all of their learning supplies, work and resources home with them tomorrow after school.

Being pro-active means that if there is either a provincial shutdown imposed or a move to remote learning after the Easter weekend, everyone has what they will need to continue learning from home.

We hope everyone enjoys a restful and safe long weekend.

Thank you for your support.

Sincerely,
Near North District School Board
