Dear Parents and Guardians,

The Ontario government [announced](#) this afternoon that all publicly funded schools across the province will move to remote learning after the Spring Break.

Starting April 19, elementary and secondary students will shift to remote learning. At this time, there is no return date for when in-person learning will resume.

During the shift to online learning, child care for non-school aged children will remain open, before and after school programs will be closed, and free emergency child care for school-aged children of eligible health care and frontline workers will be available.

Students with special education needs, who require additional support that cannot be accommodated through remote learning, will have the option for continued in-person learning.

In the coming days, we will share additional details with you as they become available.

Please continue to visit [NNDSB's website](#) for updates.

Thank you and stay safe.
