

## Summer Camps 2023

\*\*Please contact the Resource Teacher at your child's school for registration information.

Dates	Program/Description	Grade	Time/Format/Link
July 10-14 ONLINE	<b><u>Assistive Technology 1.0</u></b> Increase independence, confidence, and self-advocacy with technology. Students will build their own website as they discover more about the way they learn, new learning strategies, and the assistive technologies that work best for them.	3-8	1-3pm (Mon-Fri)
	<b><u>Coding Level 1 for students with ASD</u></b> Introduction to Coding and Robotics to enhance social and behaviour regulation skills, increase confidence, and develop computational thinking through an authentic group coding environment.	1-5	9:30-11am (Mon-Fri)
July 17-21 ONLINE	<b><u>Assistive Technology 2.0</u></b> Build upon literacy and comprehension skills gained during the first iteration of the AT & Literacy Program. Students will get hands on with several pieces of assistive technology tools to support written expression.	3-8	1-3pm (Mon-Fri)
	<b><u>Coding Level 2 for students with ASD</u></b> Continue the coding journey with more complex coding challenges using computational thinking frameworks.	6 and up	9:30-11am (Mon-Fri)
July 24-28 ONLINE	<b><u>Hi-5 AT and Strategies for Academic Success</u></b> Jump start learning with concrete independent learning strategies using technology tools to set the student up for success heading into a new school year.	3-8	1-3pm (Mon-Fri)
August 21-25 ONLINE	<b><u>High School Transition Program</u></b> Drive confidence and independence with strategies to manage workload, stay on top of tasks, and become a more confident reader and effective writer.	8-9	10am-12pm (Mon-Fri)
