Subject: Playground Update for the Start of the School Year

Dear Parents/Guardians,

As a follow up to the message shared last week, we would like to provide an update on the status of the playground at the new school.

We have received confirmation that the playground equipment for Francis Pegahmagabow Elementary School is scheduled to be delivered on September 21. The supplier has advised that this delivery date cannot be moved. Once the equipment arrives, installation is expected to take approximately one week.

While the playground will not be available when students return to school on September 8, students will continue to have access to outdoor play spaces. A temporary fenced-in play area will be located at the front of the school and will be available for student use. The track will also be available for outdoor activities.

We wanted to share this information with families as soon as possible so that everyone is aware of the latest timeline and knows what to expect at the start of the school year.

We look forward to welcoming students back in September and to the completion of the playground.

Sincerely,

Jay MacJanet, CEO
Rebecca Bell, Supervisor
